

NUTRIENT MANAGEMENT (CSP Enhancements)

November 2005

Enhancement Activity Task Sheet

WV-CSPENM-TS

Client's Name:

Worksheet 11 - Annual Soil Tests

Payment = \$1.00/acre to test soil sample from 4-8 inches (Cropland) 0-3 inches (pasture) for phosphate, potassium and pH. Submit one sample per field or grazing area to West Virginia University soil testing lab.

Soil testing will be conducted annually within one month after the harvest of the fall crop. Samples will be taken at 4-8 inches below the soil surface. Pastureland will be tested annually between end of grazing season and March 30. Test for phosphate, potassium, pH, and organic matter.

Use this (or similar) table to document location and timing of Soil Tests.

Fields Tested	Date of Field Testing

Attach receipts for soil testing services and map(s) showing location of soil tests.

Manage Nutrients Using Soil Test Certification

I certify that I have used the results of Soil Tests to manage nutrients.
